

Indiana Association for  
Floodplain and Stormwater Management

**INAFSM Administrator Report – September 21, 2018**

1. Busy, busy with conference planning and execution
2. College Scholarship winner's bios received and are posted on website.
  - a. I will make notes of the processes I used for notification along with other processes involving call for scholarship applications for a proposed SOP.
  - b. I still need to do news releases for students
3. ASFPM All Chapters Call
  - a. Greg Main Scholarship
    - i. I discussed our scholarship awards and ASFPM seemed to be impressed with our collections for the 2<sup>nd</sup> year.
    - ii. I will be sending a write up next week to Gigi for inclusion in their eNewsletter
  - b. They are changing the dues renewal structure and application. Our dues will not be impacted. The change is meant to help smaller association with less than 125 members. Chapters with less than 125 members will pay less and a chapters with more than 500 members will pay more. The renewal application is in the process of being simplified.
  - c. CFM credit hours. They are asking that we now send Excel documents instead of sign in sheets. Karen needs to discuss with Darren Pearson how to handle this. They also accept certificates which we have not done in the past for CFMs. Karen would like to consider an easier way to get this excel spreadsheet to ASFPM, perhaps adding a check box on conference registration for different certifications, still having the sign in sheet, but keep an excel sheet for a timely turnover to ASFPM.
